I am a scientist mainly interested in human behaviour, as well as quantitative methods and reproducible science.

Highlights

About me: I currently am an Associate Professor and Researcher at the [Human Behaviour Lab \(LACH\)](#), Faculty of Psychology, at [Universidad El Bosque](#) in Bogota, Colombia. I hold a Bachelor's in Music Education from Universidad Pedagógica Nacional (Colombia), an MSc in Evolutionary Psychology from the University of Liverpool, and a PhD from the University of Stirling.

Research: I study the evolutionary underpinnings of human behaviour, particularly those related to mate choice and the social effects of vocal signals, with a particular interest in the evolution of musicality. I have published among the first articles showing within-individual changes in voice pitch in response to the social status of the listener and have demonstrated strong effects of voice modulation on listeners in courtship contexts.

Voice modulation special issue: More recently, I have led the edition of the 2-part theme issue [Voice modulation: from origin and mechanism to social impact](#) for *Philosophical Transactions of the Royal Society B* (parts 1 and 2 publishing online on November 1 and 15, 2021, respectively). This 2-part issue constitutes the first compendium of research on voice modulation. It includes articles covering the diverse functions of voice modulation in human and nonhuman nonverbal communication, from signalling motivation and emotion, exaggerating biological traits like body size and masculinity, to enabling song and musicality across cultures. This issue contains three articles in which I am an author, including one in which we propose a bold new model for the evolution of musicality embedded in the context of human voice modulation (Leongómez, Havlíček, & Roberts, 2021).

Open science: I strongly support the dissemination of open science practices and the use of opensource software and programming as tools to promote transparency and reproducibility, as well as to reduce national inequalities in production of, and access to, scientific knowledge. Because of this, I have been heavily involved in the teaching and designing of statistics-related modules, with an emphasis on open science and reproducibility.

Research Interests

- Human voice
- Vocal modulation
- Mate choice
- Human behaviour
- Psychoacoustics
- Hormone effects on human behaviour

Primary Research Methods

- Experimental designs
- Online questionnaires
- Voice recording
- Acoustic analysis
- Facial photographs
- Geometric morphometrics
- Anthropometry
- Reproducible Research

Skills

Programming	R (advanced: all data wrangling, analysis, plots and tables -and even this CV and my website - made in R)
Reproducible Reports	Markdown/Rmarkdown (including \LaTeX and HTML), Version Control (GitHub, GitLab)
Quantitative Research	General and Generalised Models, Linear Mixed-effects Models, Model selection and Averaging, Machine Learning
Software	R, RStudio, Praat, Audacity, InkScape, Mendeley, Zotero, OBS Studio, Blender (video editing)
Languages	English/Spanish (native)

Higher Education

University of Stirling

- Committee members: Prof. Phyllis C. Lee (dissertation chair), and Prof. Stuart Semple

University of Liverpool

Liverpool, UK

MSC IN EVOLUTIONARY PSYCHOLOGY (WITH DISTINCTION)

2009

- Supervisor: Prof. Prof. [S. Craig Roberts](#)
- Best overall performance in the MSc
- Research project: 82/100

Universidad Pedagógica Nacional

Bogota, Colombia

BA IN MUSIC PEDAGOGY

2006

- GPA: 4.28/5.00
- Research project: 4.90/5.00

Working Experience (University Level)

I have administrative and leadership responsibility both within the University and externally. Within the University, I am the leader of the research group [Procesos Cognoscitivos y Educación](#) [Cognitive Processes and Education], being in charge of the periodic calls for the [recognition and measurement of research, technological development or innovation groups](#) by the Colombian Ministry of Science, Technology and Innovation ([Minciencias](#)), I have been Module Organiser for 9 modules, and sit on two Faculty committees. Externally, I carry editorial responsibilities and review funding applications for [Minciencias](#).

CATHEDRATIC PROFESSOR

Jan. 2015 - Dec. 2016

- Teaching and supervision of research projects

University of Stirling

Stirling, UK

TEACHING ASSISTANT

2011 - 2014

- Supervision of an MSc research project (Evolutionary Psychology MSc)
- Marking and statistical advice to MSc students

Universidad Pedagógica Nacional

Bogota, Colombia

AUXILIAR PROFESSOR

2010

- Member of the Research Committee
- Supervision of research projects

Before working at universities, I worked as a private piano teacher to adult students (2000 - 2005), and taught music-related topics in several institutions in Colombia, at different levels ranging from nursery to secondary school (2003

- 2006), as well as the school of the Colombian Youth Philharmonic Orchestra (2005 - 2006). In 2006 I moved to the UK to study English and look for postgraduate opportunities.

Teaching Experience (University Level)

I have been mostly involved in teaching statistics-related modules¹. At both Universidad El Bosque (MSc level) and Universidad de La Sabana (undergraduate level), I redesigned the statistics learning programmes to integrate teaching of statistical techniques with the use of statistical software. Since 2017, I have led an initiative at Universidad El Bosque to move from proprietary software like SPSS, to open-source software, following open science principles and focusing on statistical modelling, inference, and reproducibility. This has included using *jamovi* for both undergraduate and postgraduate courses, as well as running R seminars for staff and co-designing an optional R module for undergraduate students.

STUDENT EVALUATIONS (UNIVERSIDAD EL BOSQUE)

Below are evaluations of some representative modules I have taught. Please be aware of the different system established by the University to evaluate modules for undergraduate and postgraduate students.

Research Degree Project II

Universidad El Bosque

VALUES CORRESPOND TO THE PERCENTAGE OF STUDENTS WHO RATED EACH ACHIEVEMENT AS HIGH

2018

(OPTIONS WERE LOW, MEDIUM, HIGH)

- To be able to read about the subject matter in this area more critically: 90.9%
- Correct inaccurate ideas and concepts about this field of psychology: 90.9%
- Interest in research on the area under study: 90.9%
- New concepts and research: 81.8%
- Application of knowledge in the psychological context: 81.8%

¹In Colombia, academic years run between January and December, and all university courses are organised in semesters, typically starting in February and August. Because of this, each year of teaching means running the same module twice.

VALUES CORRESPOND TO THE PERCENTAGE OF STUDENTS WHO RATED EACH ACHIEVEMENT AS HIGH

2015

(OPTIONS WERE LOW, MEDIUM, HIGH)

- To be able to read about the subject matter in this area more critically: 79.5%
- Correct inaccurate ideas and concepts about this field of psychology: 70.5%
- Interest in research on the area under study: 77.3%
- New concepts and research: 72.7%
- Application of knowledge in the psychological context: 81.8%

Quantitative Methods II (Psychology MSc)

Universidad El Bosque

2017-2019

VALUES CORRESPOND TO THE AVERAGE SCORE OUT OF 5.00

- Relevance of the contents to the objective of the programme: 4.75
- Material provided to support the development of the module: 4.67
- Didactic resources used: 4.64
- Practical usefulness of the contents: 4.63
- Contribution of the contents to professional life: 4.63
- Fulfilment of the programme: 4.76
- Design of the sessions: 4.69
- **Average Academic and Methodological Aspects: 4.69**
- Clear and comprehensive conceptual handling of the topics: 4.65
- Clarity in their presentations: 4.49
- Terminology used: 4.74
- Use of strategies that develop critical-constructive thinking: 4.60
- Use of strategies that facilitate the understanding of concepts: 4.61
- Use of strategies that facilitate the application of the concepts addressed in the subject: 4.63
- Willingness to resolve doubts: 4.71
- Promotion of class participation: 4.70
- **Average Pedagogical and Didactic Conditions: 4.65**
- Adequate and objective volume of readings: 4.70
- Promotion of the student's interest in learning: 4.72
- Feedback on the activities carried out (workshops, seminars, case analysis): 4.57
- Cordial and respectful relationship with the student: 4.79
- **Average Learning Facilitators: 4.71**

STUDENT COMMENTS (UNIVERSIDAD EL BOSQUE)

Below are some anonymous comments included during student evaluations for modules I have taught.

Research Degree Project II

Universidad El Bosque

2018

COMMENTS INCLUDED:

- "Excellent teacher, good methodology and always available for tutorials"
- "Excellent attitude of the teacher during the class and in the tutorials"
- "The teacher knows a lot and his methodology is appropriate"

Sources and Documentation Styles in Psychology

Universidad El Bosque

2015

COMMENTS INCLUDED:

- "Professor Juan always came prepared to the classes and kept us informed of everything, the topics were very interesting and contributed a lot to my learning; if I had any difficulty or concern he was concerned about solving it. learning; if I had any difficulty or concern he was concerned to solve it"
- "Excellent teacher! He goes out of his way to make sure we learn and see the importance of research in psychology"
- "He is a good teacher who strives for us to learn and to be people with a critical sense and who explains by means of methodologies that make it easier to understand the subjects"

Quantitative Methods II (Psychology MSc)

Universidad El Bosque

2017-2019

COMMENTS INCLUDED:

- "Juan David has a very good way of transferring knowledge, especially for people who are not very good at quantitative subjects"
- "The course was excellent; the professor provided a very valuable learning space, not only because the topics were very relevant and at a master's level, but also because he motivated our critical thinking, gave us unconventional tools and was generally flexible to the requests of the group"
- "Excellent professional and human being"
- "I consider that the teacher's contribution was excellent, it allowed me to obtain the necessary skills for the research and statistical field"

Publications

Between 2015 and 2017 my contracts were teaching centred, with little time for research. Since 2018, however, I have focused increasingly more on research.

I have published (or have in press) 24 journal articles. In most of these I have done all statistical analyses, and 12 are as first or last author. To date, my articles have been cited 284 times, 190 (67%) since the beginning of 2019 (see figure below), and two have been cited over 50 times. I have an h-index of 8 and a g-index of 16².

Postgraduate and undergraduate Supervision

The Faculty of Psychology at Universidad El Bosque does not offer research degrees, and all M-level courses are professional masters. Because of this, opportunities to supervise postgraduate students are limited, and most of my postgraduate supervision has been external.

PhD in Neuroscience

University of Valencia, Spain

MILENA VÁSQUEZ-AMÉZQUITA - **Summa Cum Laude**

2015 - 2018

- Supervised together with Alicia Salvador
- Thesis: *Preferencias sexuales típicas y atípicas según sexo y edad de los estímulos: Utilidad de la técnica de rastreo ocular* [Typical and atypical sexual preferences according to sex and age of the stimuli: Usefulness of the eye tracking technique]

Professional Doctorate in Counselling Psychology

University of East London, UK

FRANCISCO JAVIER FLORES

2015 - 2018

- Supervised together with Lisa Chiara Fellin
- Thesis: *What sense do people make of the functions of their 'behaviours that may be causing problems in their everyday life'? A hybrid deductive/inductive template analysis*

Psychological Research Methods (Evolutionary Psychology) MSc

University of Stirling, UK
