I am a scientist mainly interested in human behaviour, as well as quantitative methods, and reproducible science.

About me

I am an Associate Professor and Researcher at the [Human Behaviour Lab \(LACH\)](#), Faculty of Psychology, at [Universidad El Bosque](#) in Bogota, Colombia. My research interests include mate choice and human vocal communication, with an aspiration towards understanding musicality. I am also interested in hormonal effects on human behaviour. I published among the first articles showing within-individual changes in voice pitch in response to the social status of the listener, and have demonstrated strong effects of voice modulation on listeners in courtship contexts. I am very passionate about quantitative methods and R programming, as a tool to promote reproducibility and open science.

Skills

Programming	R (advanced: all data wrangling, analysis, plots and tables -and even this CV- made in R)
Reproducible Report	Markdown/Rmarkdown (including \LaTeX and \HTML)
Quantitative Research	General and Generalised Models, Linear Mixed-effects Models, Model selection and Averaging, Machine Learning
Software	R, RStudio, Praat, Audacity, InkScape, Zotero, OBS Studio, Blender
Languages	English/Spanish (native)

Education

PhD - Psychology	<i>Stirling, UK</i>
UNIVERSITY OF STIRLING - SCHOOL OF NATURAL SCIENCES	2014
MSc in Evolutionary Psychology	<i>Liverpool, UK</i>
UNIVERSITY OF LIVERPOOL - SCHOOL OF BIOLOGICAL SCIENCES	2009
BA in Music Pedagogy	<i>Bogota, Colombia</i>
UNIVERSIDAD PEDAGÓGICA NACIONAL - FACULTAD DE BELLAS ARTES	2006
